

IS IT A TIPPING POINT OR A BREAKING POINT?

WITH OUR PROVINCE
YET AGAIN SPENDING
THE LEAST IN
CANADA ON PUBLIC
EDUCATION, IT'S PRETTY
MUCH BOTH.

Alberta's education system has never been closer to breaking due to inadequate government funding. As proud citizens, we cannot stand by while Alberta's policies continue to neglect education. This situation demands urgency and a call to action from all of us.

Alberta spends the least on public education per student in Canada. This neglect has left our schools and students in dire need, creating a crisis in our public education system. The latest report from the Fraser Institute in late 2023 starkly highlights that Alberta's education spending is the lowest in the nation.

Insufficient funding leads to unmet student needs, overcrowded classrooms, the elimination of diverse programs, and decreased support for students with complex issues. These compounded problems have driven many dedicated teachers to leave their profession in despair.

It's time to address these injustices. We must advocate for increased funding and resources to support our students and educators. Want to make a difference for Albertans? Demand answers from your MLA about why Alberta spends the least on public education per student in all of Canada. It's time to stop the excuses and take action.
